## Independent Auditor's Report

To the Board of Trustees  
The Catholic Diocese of Kansas City–St. Joseph  
Deposit and Loan Fund

### Report on the Financial Statements

We have audited the accompanying financial statements of The Catholic Diocese of Kansas City–St. Joseph Deposit and Loan Fund, which comprise the statements of financial position as of June 30, 2017 and 2016, the related statements of activities and cash flows for the year ended June 30, 2017, and the period from April 28, 2016 to June 30, 2016, and the related notes to the financial statements.

### Management's Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Catholic Diocese of Kansas City–St. Joseph Deposit and Loan Fund as of June 30, 2017 and 2016, and the changes in its net assets and its cash flows for the year ended June 30, 2017, and the period from April 28, 2016 to June 30, 2016, in accordance with accounting principles generally accepted in the United States of America.

**Other Matter**

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The additional consolidating detail for The Catholic Diocese of Kansas City–St. Joseph Deposit and Loan Fund presented on the statement of financial position and the statement of activities is presented for the purpose of additional analysis rather than to present the financial position and the results of operations of the entity and is not a required part of the financial statements. The consolidating information has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements, or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

### Notes to Financial Statements

#### Note 1. Nature of Activities and Significant Accounting Policies

**Nature of activities:** The accompanying financial statements include all funds maintained by and directly under the control of The Catholic Diocese of Kansas City–St. Joseph Deposit and Loan Fund (the Trust). The Trust was established April 28, 2016.

The following is a summary of the Trust's significant accounting policies:

**Basis of presentation:** The financial statement presentation follows the recommendations of *FASB Accounting Standards Codification (ASC) Topic 958, Financial Statements of Not-for-Profit Funds*. Under ASC 958, the Trust is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets and permanently restricted net assets. Accordingly, net assets of the Trust and changes therein are classified and reported as follows:

**Unrestricted net assets:** Unrestricted net assets are net assets that are not subject to donor-imposed stipulations.

**Unrestricted, designated net assets:** Unrestricted, designated net assets are net assets that are designated by the Board of Trustees and can only be released upon approval of the Board of Trustees.

**Temporarily restricted net assets:** Temporarily restricted net assets are net assets subject to donor-imposed stipulations that may or will be met either by actions of the Trust and/or the passage of time.

**Permanently restricted net assets:** Permanently restricted net assets are net assets subject to donor-imposed stipulations that expire neither by the passage of time nor by actions of the Trust. There are no permanently restricted net assets as of June 30, 2017 and 2016.

**Restricted and unrestricted revenue and support:** Unconditional contributions received are recorded as unrestricted, temporarily restricted or permanently restricted support, depending on the existence or nature of any donor restrictions. Conditional contributions received are not recorded until the event occurs to make the contribution unconditional.

Donor-restricted support is presented as an increase in temporarily or permanently restricted net assets, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or a purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Donor-restricted support whose restrictions are satisfied in the same reporting period in which the contributions are received are classified as unrestricted donations.

**Fund accounting:** To ensure observance of limitations and restrictions placed on the use of resources available to the Trust, the accounts of the Trust are maintained in accordance with the principles of fund accounting. Resources are classified for accounting and reporting purposes into funds, according to the nature and use of such resources. Separate accounts are maintained for each fund.

**Endowment fund:** These are restricted funds invested for the purpose of producing income. They consist of 1) permanently restricted endowment funds, wherein the donors have stipulated that the principal be invested and maintained intact, with only the investment income available for expenditure, 2) temporarily restricted endowment funds, donated with provisions that the principal may be expended under the circumstances designated in the trust agreement and 3) unrestricted funds designated as internal endowments by the Bishop to be used as he designates.

#### Note 1. Nature of Activities and Significant Accounting Policies (Continued)

**Deposit and loan fund:** The deposit and loan fund is composed of asbestos loans as well as deposits by Diocesan parishes and institutions, and cemetery perpetual care funds. Borrowed funds and parish deposits are used to provide financing for capital improvements in parishes and Diocesan institutions.

Funds entrusted to the Trust for safekeeping are invested through commercial banks and fixed-income and equity investment managers.

**Cash and cash equivalents:** For purposes of reporting cash flows, the Trust considers all unrestricted highly liquid investments purchased with a maturity of three months or less to be cash equivalents. The Trust maintains cash balances and money market accounts in excess of insured amounts at several financial institutions, which are primarily located in Kansas City, Missouri. Management believes that the risk of loss is minimal due to the strength of the institutions. The Trust has not experienced any losses on such accounts.

**Loans and accounts receivable:** Loans and accounts receivable are obligations due from Diocesan parishes and institutions. Loans receivable are stated at the amount of unpaid principal. The allowance on loans receivable is based on management's review of specific loans and current economic conditions that may affect the borrower's ability to repay. Accounts receivable are carried at original invoice amount less an estimate made for doubtful receivables based on a review of all outstanding amounts on a monthly basis. Management determines the allowance for doubtful accounts by regularly evaluating individual parish and institution receivables and considering the parish and institution's financial condition and credit history, and current economic conditions. Accounts receivable are written off when deemed uncollectible. Recoveries of accounts receivable previously written off are recorded when received.

An accounts receivable is considered to be past due if any portion of the receivable balance is outstanding for more than 90 days. Interest is not charged on past-due accounts receivable.

**Investments:** Investments are recorded at fair value. Unrealized gains and losses are recorded in the statements of activities. See Note 8 for fair value information.

**Parish deposits:** Parish deposits consist of funds being held by the Trust on behalf of parishes within the Catholic Diocese of Kansas City–St. Joseph.

**School deposits:** School deposits consist of funds being held by the Trust on behalf of schools within the Catholic Diocese of Kansas City–St. Joseph.

**Long-term deposits payable:** Long-term deposits payable consist of funds being held by the Trust on behalf of cemetery perpetual care funds.

**Use of unrestricted net assets:** Following the provision of the indenture of Trust, the trustees may make periodic, discretionary contributions to Catholic Diocese of Kansas City–St. Joseph Chancery Operation (Chancery Operation) to assist in funding the operations of the Chancery Operation from the funds of the Trust that are not obligated to participants and that are in excess of funds determined by the trustees to be reasonably required for the operation of the Trust, using standards that are applicable to a fund comparable in size and function to the Trust.

### Notes to Financial Statements

#### Note 1. Nature of Activities and Significant Accounting Policies (Continued)

**Use of estimates:** The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Income taxes:** The Trust is exempt from income taxes under provisions of section 501(c)(3) of the Internal Revenue Code due to its religious affiliation with the Catholic Diocese of Kansas City–St. Joseph and inclusion in the Catholic Register. Uncertain tax provisions, if any, are recorded in accordance with ASC Topic 740, Income Taxes (previously FIN 48). ASC 740 requires the recognition of a liability for tax positions taken that do not meet the more-likely-than not standard that the position will be sustained upon examination by the taxing authorities. There is no liability for uncertain tax positions recorded at June 30, 2017 and 2016.

**Recent accounting pronouncements:** Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*, requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. This guidance will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. The new standard permits the use of either the retrospective or cumulative effect transition method. In August 2015, the FASB issued ASU No. 2015-14, which defers the effective date of ASU 2014-09 one year, making it effective for annual reporting periods beginning after December 15, 2018. The Trust is evaluating the effect the standard will have on its financial statements and related disclosures. The Trust has not yet selected a transition method and has not determined the effect of the standard on ongoing financial reporting.

In August 2016, the FASB issued ASU No. 2016-14, *Not-for-Profit Entities (Topic 958): Presentation of Financials Statements of Not-for Profit Entities*. The new standard changes presentation and disclosure requirements with the intention of helping not-for-profits provide more relevant information about their resources to donors, grantors, creditors and other financial statement users. This pronouncement decreases the number of net assets classes from three to two. The new classes will be *net assets with donor restrictions* and *net assets without donor restrictions*. The standard will take effect for annual financial statements issued for fiscal years beginning after December 15, 2017, and for interim periods within fiscal years beginning after December 15, 2018. Therefore, this ASU will be effective for the Trust's fiscal year ending June 30, 2019. Management is in the process of evaluating the impact of this new guidance.

#### Note 2. Loans and Accounts Receivable

Loans and accounts receivable are composed of the following as of June 30, 2017 and 2016:

	2017	2016
Parish loans	\$ 6,378,416	\$ 16,245,966
High schools and other entities	4,305,005	3,619,055

### Notes to Financial Statements

#### Note 2. Loans and Accounts Receivable (Continued)

The Trust's loans receivable consist of funds disbursed to parishes, high schools, Diocesan institutions and other entities with the Catholic Diocese of Kansas City-St. Joseph. The Trust determined its allowance for estimated losses on these loans by analyzing financial results, factors and circumstances of individual accounts or loans. All loans have the same terms and, therefore, are considered to be in the same class of loan.

The aging of the receivables portfolio as of June 30, 2017 and 2016, is summarized below:

	2017		
	Current	Past Due	Total
Receivables	\$ 6,396,502	\$ 4,369,490	\$ 10,765,992
As a percentage of the total loan portfolio	59.41%	40.59%	100.00%
	2016		
	Current	Past Due	Total
Receivables	\$ 17,691,579	\$ 2,257,916	\$ 19,949,495
As a percentage of the total loan portfolio	88.68%	11.32%	100.00%

An allowance for doubtful accounts was \$40,000 as of both June 30, 2017 and 2016. A provision of \$-0- and \$40,000 was recorded for the year ended June 30, 2017, and the period from April 28, 2016 to June 30, 2016, respectively.

#### Note 3. Investments

#### Note 4. Line of Credit

The Trust has a \$4.6 million line of credit with a commercial bank. The line of credit expires April 28, 2018. The line of credit bears interest at LIBOR plus 210 basis points (3.2 percent at June 30, 2017) at 12-month options and is collateralized by certain real estate. Principal is to be repaid at maturity, with interest due monthly. Borrowings outstanding on this line of credit at June 30, 2017 and 2016, were \$0- and \$2,500,000, respectively. The agreement contains certain restrictive covenants, including the maintenance of a fixed-charge coverage ratio and liquid coverage ratio.

#### Note 5. Deposits Payable

In the parish deposits payable account, the amounts of \$23,533,720 and \$16,451,650 as of June 30, 2017 and 2016, respectively, consist of numerous deposits made to the Trust that are payable on demand. School deposits payable amount to \$3,677,680 and \$4,444,410 as of June 30, 2017 and 2016, respectively. All deposits bear a 1.75 percent and 1.50 percent interest rate as of June 30, 2017 and 2016, respectively.

#### Note 6. Restricted Net Assets

Temporarily restricted net assets are available for the following purposes or periods at June 30, 2017 and 2016:

	2017	2016
Restrictions as to use:		
Education of children	\$ 292,597	\$ 272,628
Cemetery maintenance	51,031	50,231
Facilities construction and maintenance	1,028,475	1,030,936
Religious services	106,610	104,939
Total temporarily restricted net assets	<u>\$ 1,478,713</u>	<u>\$ 1,458,734</u>

During the year ended June 30, 2017, and the period from April 28, 2016 to June 30, 2016, other assets were released from restriction by incurring expenses satisfying the restricted purpose specified. The purpose was endowment payments to beneficiaries in the amount of \$33,523 and \$4,089, respectively.

#### Note 7. Endowments

In July 2006, the Uniform Law Commission approved the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA) as a modernized version of the Uniform Management of Institutional Funds Act of 1972 (UMIFA), the model act on which most states and the District of Columbia have based their primary laws governing the investment and management of donor-restricted endowment funds by not-for-profit funds.

Among its changes, UPMIFA prescribes new guidelines for expenditure of a donor-restricted endowment fund (in the absence of overriding, explicit donor stipulations). Its predecessor, UMIFA, focused on the prudent spending of the net appreciation of the Trust. UPMIFA instead focuses on the entirety of a donor-restricted endowment fund, that is, both original gift amount(s) and net appreciation. UPMIFA eliminates UMIFA's historic-dollar-value threshold, an amount below that a fund could not spend from the Trust, in favor of a more robust set of guidelines about what constitutes prudent spending, explicitly requiring consideration of the duration and preservation of the Trust.

### Notes to Financial Statements

---

#### Note 7. Endowments (Continued)

The Trust's endowment includes both donor-restricted endowment funds and funds designated by the management to function as endowments. As required by generally accepted accounting principles, net assets associated with endowment funds, including funds designated by management to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

**Interpretation of existing law:** The management of the Trust has interpreted UPMIFA as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary (historical-dollar-value threshold). As a result of this interpretation, the Trust classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the Trust.

The following information is related to the endowments under the direction of the Trust.

**Return objectives and risk parameters:** The Trust has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Trust must hold in perpetuity or for a donor-specified period(s) as well as management-designated funds. Under this policy, as approved by the management, the endowment assets are invested following the Trust's guidelines as determined by management in consultation with the Trust's Investment Committee. The endowments are paid a rate determined by management in consultation with the Board of Trustees.

**Strategies employed for achieving objectives:** To satisfy its long-term rate-of-return objectives of the endowments invested per the Trust's guidelines as determined by management, the Trust employs a return strategy of utilizing the internal earning rate as set by management based on market rates.

**Spending policy and how the investment objectives relate to spending policy:** The Trust has a policy of appropriating for distribution the interest earned in the current year by the endowment funds as well as allows for the distribution of the principal as per the stipulations of the donor as well as management-designated funds. This is consistent with the Trust's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

From time to time, the fair value of assets associated with the endowment funds may fall below the level that the donor or UPMIFA requires the Trust to retain as a fund of perpetual duration. In accordance with U.S. GAAP, deficiencies of this nature are reported in temporarily restricted and unrestricted net assets. There were no deficiencies as of June 30, 2017 and 2016.

#### Note 8. Fair Value Measurements

ASC Topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. ASC 820 requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. In that regard, ASC 820 establishes fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

**Level 1:** Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date

**Level 2:** Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data

**Level 3:** Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability

**Assets and liabilities recorded at fair value on a recurring basis:** A description of the valuation methodologies used for assets and liabilities on a recurring basis is set forth below:

**Investments:** Where quoted prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities would include highly liquid government bonds and exchange traded equities. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics, or discounted cash flow. Level 2 securities would include U.S. agency securities, mortgage-backed agency securities, obligations of states and political subdivisions and certain corporate, asset-backed and other securities.

The following tables summarize the assets and liabilities measured at fair value on a recurring basis, segregated by the general classification of such instruments pursuant to the valuation hierarchy:

The fair value estimates presented are based on pertinent information available to management as of June 30, 2017 and 2016. Although management is not aware of any factors that would significantly affect the estimated fair value measurements, such amounts have been comprehensively revalued for purposes of the financial statements since that date, and therefore, current estimates of fair value may differ significantly from the amounts presented herein.

#### Note 9. Related-Party Transactions

The Trust has a Management Services Agreement with the Chancery Operation by which the Chancery Operation can bill the Trust for administrative and supporting services. Billings are based on an allocation of staff hours spent on Trust operations. For the year ended June 30, 2017, and the period from April 28, 2016 to June 30, 2016, \$307,000 and \$-0-, respectively, were paid to the Chancery Operation for administrative services.

#### Note 10. Subsequent Events

Management has evaluated and disclosed subsequent events up to and including November 1, 2017, which is the date the financial statements were available to be issued.
