PENSION PLAN

The Lay Pension Plan provides a benefit to eligible lay employees based on salary and the number of years of credited service. Combined with Social Security benefits and savings or investments, the Plan will help to meet personal living expenses during retirement.

Eligibility

Regular, full-time lay employees of parishes, schools and participating institutions in the Diocese.

Transferring

Transferring from one participating employer to another within the Diocese does not change an employee’s “Date of Hire,” as long as there is no break in service.

Vested Pension

An employee may leave the Diocese with a “Vested Pension” – the right to future benefits – after five years of continuous, full-time service. Note: As of July 1, 1998, a participating employee, prior to completing 5 years of continuous service, may incur a break in service up to 36 months without the loss of credited service.

Spouse

The spouse of a deceased, vested employee may apply for a surviving spouse benefit on the deceased employee’s normal retirement date, age 65. A surviving spouse benefit is the amount that would have been paid (based on service to the date of death) if the employee had elected a 50% survivor annuity on the employee’s normal retirement date.

Distribution

The plan is administered by Gallagher Retirement Services. All contributions to the plan are held in a Trust Fund and are not eligible for distribution until age 55. Additional details can be found in the Summary Plan Description.

Retirement

403(B) PLAN

You may choose to invest in a 403(b) program. All lay employees full-time and part-time are eligible to participate in the 403(b) plan. Many investment options are available through AIG, and contributions are deducted from your paycheck.

Your AIG representative will advise you as needed, including investments, retirement planning and enrollment.

Traditional 403(b)

Traditional 403(b) plans are similar to a 401(k) plan, and contributions are deducted before Federal and State income taxes.

ROTH 403(b)

You may contribute after-tax money to the Roth 403(b) that allows tax-free withdrawals of principal and interest.

Changes to contribution amount can only be made during:

- Open Enrollment in late October (Effective Jan 1)
- Semi-annual enrollment in June (Effective July 1)

For first time enrollments or information on investment options, contact Jay Simpson to set up a new AIG account.

Notices

Notice of Special Enrollment Rights

If you are declining enrollment for yourself or your dependents (including your spouse) because of other health insurance or group health plan coverage, you may be able to enroll yourself and your dependents in this plan if you or your dependents lose eligibility for that other coverage (or if the employer stops contributing towards your or your dependents' other coverage). However, you must request enrollment within 30 days after your or your dependents' other coverage ends (or after the employer stops contributing toward the other coverage).

In addition, if you have a new dependent as a result of marriage, birth, adoption, or placement for adoption, you may be able to enroll yourself and your dependents. However, you must request enrollment within 30 days after the marriage, birth, adoption, or placement for adoption.

Notice of Patient Protections

Your plan generally allows the designation of a primary care provider. You have the right to designate any primary care provider who participates in our network and who is available to accept you or your family members. For children, you can designate a pediatrician as the primary care provider. For information on how to select a primary care provider, and for a list of the participating primary care providers, contact the Human Resources Department.

You do not need prior authorization from your plan or from any other person (including a primary care provider) in order to obtain access to obstetrical or gynecological care from a health care professional in our network who specializes in obstetrics or gynecology. The health care professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals. For a list of participating health care professionals who specialize in obstetrics or gynecology, contact the Human Resources Department.

Women's Health and Cancer Rights Act

Do you know that your plan, as required by the Women's Health and Cancer Rights Act of 1998, provides benefits for mastectomy-related services including all stages of reconstruction and surgery to achieve symmetry between the breasts, prostheses, and complications resulting from a mastectomy, including lymphedema? Call your plan administrator for more information.

Newborns' and Mothers' Health Protection Act

Group health plans and health insurance issuers generally may not, under Federal law, restrict benefits for any hospital length of stay in connection with childbirth for the mother or newborn child to less than eight hours following a vaginal delivery, or less than 96 hours following a cesarean section. However, federal law generally does not prohibit the mother's or newborn's attending provider, after consulting with the mother, from discharging the mother or her newborn earlier than 48 hours (or 96 hours as applicable). In any case, plans and issuers may not, under Federal law, require that a provider obtain authorization from the plan or the insurance issuer for prescribing a length of stay in excess of 48 hours (or 96 hours).

HIPAA Privacy

Your employer is required by law to take reasonable steps to ensure the privacy and inform you about the uses of your protected health information (PHI). The use and disclosure of PHI is regulated by the federal law known as HIPAA (the Health Insurance Portability and Accountability Act). A more complete description of your privacy rights and protections is available to you on request. Contact the Human Resources Department with any questions or to request a copy of the full HIPAA privacy notice.

Premium Assistance Under Medicaid and the Children’s Health Insurance Program (CHIP)

If you or your children are eligible for Medicaid or CHIP and you’re eligible for health coverage from your employer, your state may have a premium assistance program that can help pay for coverage, using funds from their Medicaid or CHIP programs. If you or your children aren’t eligible for Medicaid or CHIP, you won’t be eligible for these premium assistance programs but you may be able to buy individual insurance coverage through the Health Insurance Marketplace. For more information, visit www.healthcare.gov.

If you or your dependents are already enrolled in Medicaid or CHIP and you live in a State listed below, contact your State Medicaid or CHIP office to find out if premium assistance is available.

If you or your dependents are NOT currently enrolled in Medicaid or CHIP, and you think you or any of your dependents might be eligible for either of these programs, contact your State Medicaid or CHIP office or dial 1-877-KIDS NOW or www.insurekidsnow.gov to find out how to apply. If you qualify, ask your state if it has a program that might help you pay the premiums for an employer-sponsored plan.

If you or your dependents are eligible for premium assistance under Medicaid or CHIP, as well as eligible under your employer plan, your employer must allow you to enroll in your employer plan if you aren’t already enrolled. This is called a “special enrollment” opportunity, and you must request coverage within 60 days of being determined eligible for premium assistance. If you have questions about enrolling in your employer plan, contact the Department of Labor at www.askebsa.dol.gov or call 1-866-444-EBSA (3272).

If you live in one of the following states, you may be eligible for assistance paying your employer health plan premiums. The following list of states is current as of July 31, 2019. Contact your State for more information on eligibility –
